EXPERIENCE

- **Software Developer Trainee** Pune
ProDT Consulting Services Private Limited 06/2024 - Present
 - Developed and maintained production-ready applications using JavaScript and No-Code tools like Xano, Supabase, WeWeb, and Directus, accelerating development timelines by 30%.
 - Optimized web application performance through efficient coding practices and integration of No-Code platforms, ensuring faster and scalable deployments.
 - Collaborated within cross-functional teams to build user-friendly and responsive websites, enhancing client satisfaction and reducing project delivery times.
 - Utilized PL/SQL and JavaScript for backend and frontend development, ensuring seamless database interaction and smooth user experiences.
 - Streamlined application development processes by integrating No-Code solutions, achieving faster prototyping and production readiness.
 - Contributed technical expertise in team projects to deliver high-performance web solutions tailored to client requirements.
- **Software Developer Intern** Kalyan
TMD Creators 12/2023 - 05/2024
 - Developed and maintained the platform using the MERN stack.
 - Migrated the backend database from MongoDB to MySQL for improved performance.
 - Collaborated on integrating new features and resolving bugs.
 - Ensured responsive design and cross-browser compatibility.
 - Leveraged technologies: Remix.js, Node.js, Express.js, MySQL, and Tailwind CSS.

PROJECTS

- **PCRM** 12/2023 - 04/2024
Github
 - Enhanced platform performance by migrating the database from MongoDB to MySQL, resulting in improved query efficiency and system reliability.
 - Developed and upgraded frontend functionality using Remix and Bootstrap, ensuring a responsive and user-friendly interface.
 - Implemented advanced features to streamline project management processes, reducing operational bottlenecks by 30%.
 - Collaborated with cross-functional teams to optimize the platform's efficiency and usability, contributing to an improved user experience.
- **Pei-Clothing** 02/2024 - 05/2024
Github
 - Designed and implemented backend and frontend components using Remix.js, Node.js, Express.js, and MongoDB, ensuring seamless functionality for both users and administrators.
 - Optimized SEO and routing to improve search engine visibility and enhance navigation efficiency.
 - Integrated authentication and payment gateway solutions, streamlining secure transactions and improving operational efficiency.
 - Enhanced user experience by implementing responsive design and scalable database management.
- **Social-Info** 06/2024 - 08/2024
Github
 - Developed a full-stack web application enabling users to share information and photos, leveraging Node.js, React, and MongoDB for seamless functionality.
 - Integrated Cloudinary for efficient image storage and implemented email notification features, improving communication and usability.
 - Designed a responsive front-end and ensured robust backend support, delivering an optimal and intuitive user experience.
 - Implemented key user features such as following, commenting on posts, and creating posts, enhancing user engagement.

EDUCATION

- **K.K Wagh Institute Of Engineering Education and Research** Nashik
Master - Computer Application - 7.3 CGPA 2021 - 2023

SKILLS SUMMARY

- **Languages** JavaScript, C++, Go, HTML, CSS, Bash
- **Frameworks** React, Tailwind CSS, Node.js, Express
- **Databases** MySQL, MongoDB, Supabase, Xano
- **Tools** Visual Studio Code, Postman, Docker, Git, GitHub, AWS, WeWeb

CERTIFICATIONS

- **The Complete 2023 Web Development Bootcamp** - udemy
- **Complete Backend In Node js** - Udemy
