## PROFESSIONAL EXPERIENCE

### Full Stack Developer (Contract) | Palcode.ai — Remote

Jun 2025 – Jan 2026

- Architected an AI-powered vendor outreach platform using React and FastAPI, automating multi-channel communication (Calls, Emails) and document workflows.
- Developed secure role-based dashboards (RBAC) with JWT authentication for Admin, Client, and Vendor tiers.
- Implemented async microservices using AWS SQS & EventBridge to handle high-volume background notifications and processing.
- Automated CI/CD pipelines via Jenkins and GitHub Actions, maintaining 99.9% production uptime.

### Contract Software Engineer | Independent

Feb 2025 – May 2025

- Scaled 4+ client web applications using Remix and Supabase, integrating automated lead capture and admin management systems.
- Optimized SEO and responsive performance, managing the full lifecycle from requirements to Vercel deployment.

### Software Developer | ProDT Consulting Services — Pune

Jul 2024 – Feb 2025

- Engineered a travel management system's core REST APIs using Node.js, handling complex booking logic and customer records.
- Optimized PostgreSQL relational schemas and query indexing, resulting in a 40% improvement in data retrieval speeds.
- Strengthened platform security by implementing JWT-based authentication and granular access controls.

## KEY PROJECTS

### Construction Vendor Automation Platform

[project.palcode.ai](http://project.palcode.ai)
